

PEPSICO BEVERAGES & FOODS

Barrington, Illinois

New Cafeteria for an Expanding Staff

Fueled by growth at their Barrington facility, PepsiCo Beverages & Foods worked with TKA to provide a fresh new space for lunch and socialization. An interior dining room and exterior patio added over 100 seats to this research and development center of offices and laboratories.

New Front Door for a High-Tech Building

Providing a new front door to this 1950's era building, the cafeteria and entrance canopy addition created a modern and sophisticated image, fitting for the research and development taking place inside.
