On behalf of the **CREATE Networking Group** of the **Notre Dame Club of Chicago**, we would like to thank you for your engaging presentations on your experiences with sustainable design and the realities of implementing those designs. Our members found your tales about the political aspects of the process as enlightening as your insights on the technology! We're sure we will take what we heard and apply it to both our professional and personal projects.

We hope you enjoyed meeting our group and we thank you for giving us some of your time. We wish both of you continued success with your companies and future projects.

Sincerely,

Brian Mitalo,
Matt Straub,
Mark Mieczkowski
Mary O'Toole
